

Drexel Metals Clips and Accessories

Your machine makes one component of the total metal roof system. Drexel Metals has invested millions of dollars to ensure our metal roof system meet the required building codes. Together with our QA program, DM-ARM Authorized Fabricator and Certified Installer program you can install the total Drexel Metals system with the peace of mind that Drexel metals will stand behind our products 100%. Enroll in our Gold Standard Paint Warranty program, and you will have a competitive advantage to compete with anyone! Our Gold Standard Paint Warranty is the strongest warranty in the industry covering labor and materials and is also transferrable for the life of the warranty.

Metal Stock Options

Stock Options:

Flat Sheet – For all trim and fabrication applications.

Slit Coil – For field-rolled, site-formed panels.

Standard Substrate Options:

Aluminum – High-performance painted metal roofing product, tension leveled for superior flatness.

Galvalume – High-performance painted metal roofing product, tension leveled for superior flatness.

Drexlume – Mill-finished Galvalume with a two-sided, clear acrylic finish.

Specialty Metals

There's an art to working with specialty metals – and in our skilled hands your concepts and design challenges will be clearly defined and meticulously achieved. Specialty metals can be fabricated into a host of panels and shapes to your exact specifications.

Natural Metals:

- Copper
- Zinc
- Terne-Coated Stainless Steel
- A606 Natural Weathering Steel
- Nordic and Pre-Patinated Copper

On Demand Delivery and Exceptional Results

You can depend on Drexel Metals' quality materials and excellent service for your entire sheet and slit coil needs. We stock coil for your site-formed panels, and flat material for all trim and fabrication applications. With our cut-to-length and recoil system each order is fulfilled quickly and accurately.

Since 1985, Drexel Metals has provided a full range of superior-quality engineered metal roofing systems, equipment and custom fabrication services. Drexel Metals operates several sales, fabrication and distribution locations throughout the US. In addition to our own manufacturing abilities we extend our fabrication capacities to our local DM-ARM members, who are authorized fabricators, certified Installers and distributors that further market Drexel Metals proven-brand products, all site-certified by Drexel Metals' industry-leading warranty programs. It's what we like to call Metal Roofing "On Demand"!

Driven by the tenets of customer service and integrity, Drexel Metals on demand approach, premium quality fabrications and cost efficiency have landed our company, in terms of industry prestige, in the same place where our state-of-the-art roofs sit on a building-at the top. Using local empowerment, made-in-America sensibilities, and crafting a safe, attractive and endlessly reliable product, Drexel Metals looks to remain in our deservedly lofty perch. Thanks for your business!

Please call us if your product is not listed . . . we will use our experience to ensure we supply with the right product to make your projects more profitable and more efficient.
